Section 1 – Preface	1
About Trend Tracker Limited	1
Car Body Repair Research	1
Primary and Secondary Research Sources	1
Other Data Suppliers	2
Methodology	2
Copyright Warning	2
Section 2 – Executive Summary	5
Section 3 – Market Background	9
The UK Economy	9
• From liquidity crisis to credit crunch	9
• Risk of depression	9
• Inflation risk and a double-dip recession	10
• Economic trends	10
• Increasing customer indebtedness	11
Car Ownership Trends	12
• Households and car ownership	12
• Driving licence holding	13
Demand for Cars in the UK	14
• New car registrations	14
• Size of the car parc	15
Section 4 – Market Size and Trends	17
Total Market Value	17
Total Market Volume and Average Repair Costs	18
- Market Segmentation 1	21
Insurance-funded Private Car Repairs	21
Fleet and Company Car Repairs	22
Private and Trade Repairs	22

Section 4 – Market Segmentation 2	23
Labour, Paint and Parts	23
• Parts expenditure	24
• Labour expenditure	24
• Paint and materials expenditure	24
Section 5 – Accident and Repair Rates	27
Car Usage and Repair Rates	28
• Total losses	30
Section 6 – Repairs by Marque	33
Repair Costs by Marque	33
• Average repair costs	33
• Average repair costs by marque	34
• Average labour cost of repairs	34
• Average parts cost of repairs	34
• Average paint and materials cost of repairs	36
• Charts of repair costs by marque	36
Repair Gross Margins	43
• Marque gross margins	43
Section 7 – The Bodyshop Supply Structure	49
Number of Outlets	49
Independent and Franchised Dealer Bodyshops	49
Trends in Outlet Size	51
• Small bodyshops	52
• Medium-sized bodyshops	52
Large Independent Bodyshops and Groups	53
• Nationwide Crash Repair Centres	54
• Just Car Clinics	55
Franchised Dealer Bodyshops	56
• Fewer, but larger dealer bodyshops	56
• Dealer group bodyshops	57

Section 7 – The Bodyshop Supply Structure (cont/....)	
Insurance Company-Approved Repair Networks	58
Specialist Approved Repair Networks	59
SMART Repair Specialists	59
Repair Capacity	60
Section 8 – Motor Insurance Trends	63
General Insurance Trends and Profitability	63
Motor Insurance Market Trends	64
Major Motor Insurers	65
Motor Insurance Policy Trends	67
Trends in Private and Fleet Motor Claims	67
• Rising claims costs	68
Section 9 – Bodyshop Information Technology	71
From Opinion to Standard Times	71
• Computerised estimating	71
• Thatcham times	72
• Vehicle manufacturer times	72
Estimating Systems	72
Bodyshop Management Systems	73
Section 10 – Strategic Outlook and Forecasts	75
The Economy	75
• Economic outlook	75
• Accident repair not immune	75
Motor Insurance Claims	76
Market Size and Trends	76
• Four-year car parc	76
• Market drivers	77
• Repair demand	78
• Market value and average repair costs	79
Supply Structure	79
Repair Capacity	81
• Technical repair capacity	83

Section 11 – SWOT Analysis	85
Market Opportunities	85
Market Threats'	85
• Market opportunities and threats	87
Supplier SWOT Analysis	88
• Franchised dealer bodyshops – strengths	88
• Franchised dealer bodyshops – weaknesses	88
• Franchised dealer bodyshops – opportunities	88
• Franchised dealer bodyshops – threats	89
• Franchised dealer bodyshops SWOT analysis	90
• Independent bodyshops – strengths	92
• Independent bodyshops – weaknesses	92
• Independent bodyshops – opportunities	92
• Independent bodyshops – threats	93
• Independent bodyshop SWOT analysis	94
Main Strategic Considerations	96
• Overriding objective – surviving in recession	96
• Franchised dealer bodyshops – maintain demand for aftersales activities	96
• Independent bodyshops – downsize to reduce fixed costs and increase overhead absorption	96
• Insurance companies – structure operations to cater for reduction in repair capacity	97
Section 12 - Appendices	99
Appendix 1 – Survey Questionnaire	99
Appendix 2 – Executive Summary PowerPoint	101
